

ATTENTION SAN BENITO COUNTY GROWERS

Chemigation/ Fertigation

Lecture and Demonstration using the Mobile Education Center (MEC)
Sponsored by the California Dept. of Pesticide Regulation (DPR) and the
San Benito County Water District

DPR and Ag Waiver Credits (#120209-001-IPR)

Instructor: Bill Green - Center for Irrigation Technology, Fresno, CA

**Thursday, February 9th
9 a.m. – 12 noon
San Benito County Water District
30 Mansfield Road
Hollister**

This class contains the following information:

1. The four main items the grower has to accomplish when chemigating or fertigating to protect the environment and properly inject chemicals through the irrigation system.
2. How Chemigation rules came in to being.
3. Information, brochures, and diagrams of proper equipment set up and how to safely protect the water source when injecting pesticides and fertilizers.
4. The MEC will be used to demonstrate how to supply proper flow and pressure so that the irrigation system maximizes the Distribution Uniformity to enhance the chemigation event.
5. See what happens when improper maintenance and equipment subjects water sources (groundwater, streams, canals, rivers, etc.) to potential contamination or chemical spills.
6. The diagram and Power Point will show how to set up the equipment properly to comply with DPR state law.
