EXHIBIT “A”

SAN BENITO COUNTY WATER DISTRICT INVESTMENT POLICY

I. Introduction

The investment policies and practices of the San Benito County Water District (the “District”) are based on state law and prudent money management principals and practices. All funds will be invested in accordance with District’s Investment Policy and California Government Code §53600 and §53630, et. seq.

II. Scope

This policy covers the investment of all District funds as defined in §53601 of the California Government Code, excluding the investment of employees’ retirement funds and bond proceeds.

III. Prudence

The standard of prudence to be used by investment officials shall be the Prudent Investor Standard. The Prudent Investor Standard states that when investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the District, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the District.

It is the District’s intention to hold investments until maturity. However, market prices vary depending on economic and interest rate conditions and the District may want to sell a security before maturity.

IV. Objectives

1. The primary objectives, in priority order, of the investment activities of the District shall be:

a) Safety: Safety of principal is the foremost objective of the District. Each investment transaction shall seek to preserve the principal of the portfolio, whether from institutional default, broker dealer default, or erosion of market value of the securities. Investments shall be undertaken in a manner, which first seeks to insure the preservation of principal. The District shall evaluate or cause to have evaluated each potential investment seeking both quality in the issuer

and in the underlying security or collateral and it shall diversify the portfolio to reduce exposure to loss.

1.) Credit Risk: Credit Risk, defined as the risk of loss due to failure of an issuer of a security, shall be mitigated by investing only in U.S. Treasury Obligations, Federal Agency securities, and in other high-quality investments, and by diversifying the portfolio so that the failure of any issuer would not unduly harm the District's cash flow. The District will diversify its investments by security type and institution.

2.) Market Risk: The risk of market value fluctuations due to overall changes in the general level interest rates shall be mitigated by limiting the maturity of investments in accordance with Government Code §53601. The District may not invest in a security with a maturity greater than five years without authorization by the Board of Directors at least three months prior to the investment.

b) Liquidity: Liquidity is the second most important objective. Investments shall be made whose maturity date is compatible with cash flow requirements and which can easily and rapidly be converted into cash without substantial loss of value. To assure liquidity the District shall maintain, in addition to its investment in the State of California Local Agency Investment Fund, one (1) liquid investment account. The balance in that account shall be maintained, at all times, and in an amount sufficient to cover at least two (2) current months of District expenses exclusive of debt payments (principal and interest) secured by separate reserves as set forth in the debt covenants.

c) Return on Investment: Investments shall be undertaken to produce an acceptable rate of return after first considering safety of principal and liquidity.

d) Minimize Investment Expenses: The investment portfolio shall be structured, and sales and purchases executed, in a manner that minimizes expenses.

V. Delegation of Authority

The Board of Directors retains overall responsibility for the District's investments.

The District Manager is responsible for developing and implementing an investment program within the boundaries of this Investment Policy.

The Board of Directors may delegate its investment decision making and execution authority to the District Manager or an investment advisor, who must make investments in accordance with this Policy and

other written instructions as provided with oversight from the Investment Committee.

The Investment Committee is responsible for providing oversight of the District's investment program. The Investment Committee shall review the investment program and the Quarterly Investment Reports submitted by the District Manager (See Section X. Reporting Requirements). 2. That the District, including its separate Funds (Fund 1, Zone 3, Zone 6), has the ability to meet expenditure requirements for the next six months or provide an explanation as to why sufficient money will, or may, not be available.

VI. Ethics and Conflicts of Interest

Officers and employees involved in the investment process shall refrain from personal business activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial decisions. Officers, employees, and investment managers are subject to the financial disclosure requirement of Government Code Section 87100 et seq.
